Baron Funds®

Semi-Annual Financial Report

DEAR BARON FUNDS SHAREHOLDER:

In this report, you will find unaudited financial statements for Baron Asset Fund, Baron Growth Fund, Baron Small Cap Fund, Baron Opportunity Fund, Baron Fifth Avenue Growth Fund, Baron Discovery Fund and Baron Durable Advantage Fund (the "Funds") for the six months ended March 31, 2018. The U.S. Securities and Exchange Commission (the "SEC") requires mutual funds to furnish these statements semi-annually to their shareholders. We hope you find these statements informative and useful.

We thank you for choosing to join us as fellow shareholders in Baron Funds. We will continue to work hard to justify your confidence.

Sincerely,

May 29, 2018

Ronald Baron Chief Executive Officer and Chief Investment Officer

Linda S. Martinson Chairman, President and Chief Operating Officer May 29, 2018 Peggy Wong Treasurer and Chief Financial Officer May 29, 2018

This Semi-Annual Financial Report is for the Baron Investment Funds Trust, which currently has seven series: Baron Asset Fund, Baron Growth Fund, Baron Small Cap Fund, Baron Opportunity Fund, Baron Fifth Avenue Growth Fund, Baron Discovery Fund and Baron Durable Advantage Fund. If you are interested in Baron Select Funds, which contains the Baron Partners Fund, Baron Focused Growth Fund, Baron International Growth Fund, Baron Real Estate Fund, Baron Emerging Markets Fund, Baron Energy and Resources Fund, Baron Global Advantage Fund, Baron Real Estate Income Fund, Baron WealthBuilder Fund and Baron Health Care Fund series, please visit the Funds' website at www.BaronFunds.com or contact us at 1-800-99BARON.

The Funds' Proxy Voting Policy is available without charge and can be found on the Funds' website at www.BaronFunds.com, by clicking on the "Legal Notices" link at the bottom left corner of the homepage or by calling 1-800-99BARON and on the SEC's website at www.sec.gov. The Funds' most current proxy voting record, Form N-PX, is also available on the Funds' website and on the SEC's website.

The Funds file their complete schedules of portfolio holdings with the SEC for the first and third quarters of each fiscal year on Form N-Q. The Funds' Forms N-Q are available on the SEC's website at www.sec.gov. The Funds' Forms N-Q may also be reviewed and copied at the SEC's Public Reference Room in Washington, DC; information on the operation of the SEC's Public Reference Room may be obtained by calling 1-202-551-8090. A copy of the Funds' Forms N-Q may also be obtained upon request by calling 1-800-99BARON. Schedules of portfolio holdings current to the most recent quarter are also available on the Funds' website.

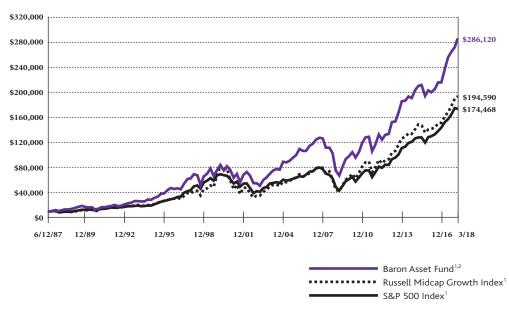

Some of the comments contained in this report are based on current management expectations and are considered "forward-looking statements." Actual future results, however, may prove to be different from our expectations. You can identify forward-looking statements by words such as "estimate," "may," "expect," "should," "could," "believe," "plan" and other similar terms. We cannot promise future returns and our opinions are a reflection of our best judgment at the time this report is compiled.

The views expressed in this report reflect those of BAMCO, Inc. ("BAMCO" or the "Adviser") only through the end of the period stated in this report. The views are not intended as recommendations or investment advice to any person reading this report and are subject to change at any time without notice based on market and other conditions.

Past performance is no guarantee of future results. The investment return and principal value of an investment will fluctuate; an investor's shares, when redeemed, may be worth more or less than their original cost. For more complete information about Baron Funds, including charges and expenses, call, write or go to www.BaronFunds.com for a prospectus or summary prospectus. Read them carefully before you invest or send money. This report is not authorized for use as an offer of sale or a solicitation of an offer to buy shares of the Funds, unless accompanied or preceded by the Funds' current prospectus or summary prospectus.

COMPARISON OF THE CHANGE IN VALUE OF \$10,000 INVESTMENT IN BARON ASSET FUND (RETAIL SHARES) IN RELATION TO THE RUSSELL MIDCAP GROWTH INDEX AND THE S&P 500 INDEX

AVERAGE ANNUAL TOTAL RETURNS FOR THE PERIODS ENDED MARCH 31, 2018

| | Six Months* | One Year | Three Years | Five Years | Ten Years | Since Inception (June 12, 1987) |
|--|----------------|-------------|----------------|---------------|--------------|--|
| Baron Asset Fund — Retail Shares ^{1, 2} | 7.79% | 19.87% | 10.63% | 13.27% | 9.84% | 11.50% |
| Baron Asset Fund — Institutional Shares 1, 2, 4 | 7.95% | 20.20% | 10.93% | 13.58% | 10.10% | 11.59% |
| Baron Asset Fund — R6 Shares ^{1, 2, 4} | 7.93% | 20.19% | 10.93% | 13.58% | 10.10% | 11.59% |
| Russell Midcap Growth Index ¹ | 9.13% | 19.74% | 9.17% | 13.31% | 10.61% | 10.13%3 |
| S&P 500 Index ¹ | 5.84% | 13.99% | 10.78% | 13.31% | 9.49% | 9.73% |

^{*} Not Annualized

The indexes are unmanaged. The Russell Midcap™ Growth Index measures the performance of medium-sized U.S. companies that are classified as growth and the S&P 500 Index of 500 widely held large cap U.S. companies. The indexes and the Fund are with dividends reinvested, which positively impact the performance results.

² Past performance is not predictive of future performance. The performance data does not reflect the deduction of taxes that a shareholder would pay on Fund distributions or redemption of Fund shares. The Fund's transfer agency expenses may be reduced by expense offsets from an unaffiliated transfer agent, without which performance would have been lower.

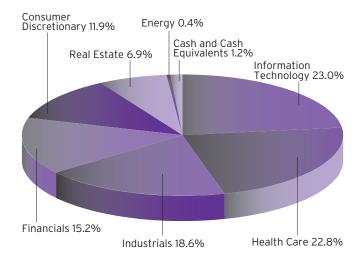

For the period June 30, 1987 to March 31, 2018.

Performance for the Institutional Shares prior to May 29, 2009 is based on the performance of the Retail Shares. Performance for the R6 Shares prior to January 29, 2016 is based on the performance of the Institutional Shares, and prior to May 29, 2009 is based on the Retail Shares. The Retail Shares have a distribution fee, but Institutional Shares and R6 Shares do not. If the annual returns for the Institutional Shares and R6 Shares prior to May 29, 2009 did not reflect this fee, the returns would be higher.

SECTOR BREAKDOWN AS OF MARCH 31, 2018[†] (as a percentage of net assets)

MANAGEMENT'S DISCUSSION OF FUND PERFORMANCE

For the six-month period ended March 31, 2018, Baron Asset Fund¹ increased 7.79%, while the Russell Midcap Growth Index gained 9.13% and the S&P 500 Index gained 5.84%.

Baron Asset Fund invests primarily in medium-sized growth companies for the long term, using a value-oriented purchase discipline. The Fund purchases companies that we believe have sustainable competitive advantages, strong financial characteristics, and exceptional management; and operate in industries with favorable growth characteristics.

During the first four months of the six-month period, U.S. equities continued their record-setting year-long-plus streak of gains. All major indexes notched numerous highs without a pullback of even 3% and market volatility was essentially nonexistent. The bull run ended abruptly in late January. For the last two months of the period, volatility returned as the markets were buffeted by investor concerns that rising inflation could potentially result in faster interest rate hikes, coupled with the threat of a U.S.-China trade war. Meanwhile, the U.S. economy continued to generate slow but steady growth. Inflation leveled off, assuaging investor fears. The unemployment rate stayed low, business and consumer confidence continued to improve, and industrial activity continued to expand. Corporate earnings remained robust, and investors are anticipating continued good news for the upcoming corporate earnings season, boosted in part by corporate tax cuts put into place in December 2017.

The Fund's investments in the Information Technology, Industrials, and Health Care sectors contributed the most to performance. There were no sectors that detracted from performance in the period.

Veterinary diagnostics leader IDEXX Laboratories, Inc. was the top contributor. Shares rallied throughout much of the period, as competitive trends were strong, highlighted by instrument installed base growth of 20%. Domestic lab growth is more than twice that of competitor VCA, sales productivity is improving, and rapid assays are accelerating. We believe the launch of its SDMA test for kidney disease and fecal antigen testing at the point of care will boost organic revenue and earnings growth over time. Margins are moving significantly higher, and we believe they can approach 30% over the next several years.

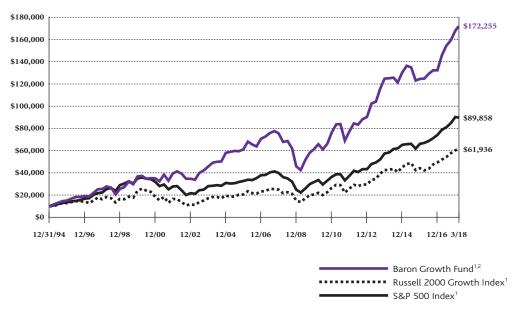

The top detractor was Arch Capital Group Ltd. Early in the period, shares of the specialty insurance and reinsurance company fell amid waning expectations for significant rate increases in the reinsurance market and large losses from catastrophic events in the third quarter. Despite growth in book value per share during the most recent quarter, shares continued to decline in the second half of the period, as industry pricing trends remain challenging and competition is increasing. We continue to own the stock due to Arch's strong management team and underwriting discipline.

We continue to believe that mid-sized growth stocks represent an attractive investment opportunity. The U.S. economy remains among the world's healthiest, its equity market multiples remain within the range of their long-term historic averages, and interest rates continue to be quite low by historic standards. We believe our diversified portfolio of fast growing, well managed, competitively advantaged businesses will continue to perform well in this environment. There is, of course, no guarantee that this will be the case.

[†] Industry sector group levels are provided by the Global Industry Classification Standard ("GICS"), developed and exclusively owned by MSCI, Inc. and Standard & Poor's Financial Services LLC, unless otherwise stated that they have been classified by the Adviser. All GICS data is provided "as is" with no warranties.

¹ Performance information reflects results of the Retail Shares.

SECTOR BREAKDOWN AS OF MARCH 31, 2018 (as a percentage of net assets)

MANAGEMENT'S DISCUSSION OF FUND PERFORMANCE

For the six-month period ended March 31, 2018, Baron Growth Fund¹ gained 7.84%, while the Russell 2000 Growth Index gained 6.99% and the S&P 500 Index gained 5.84%.

Baron Growth Fund invests primarily in small-sized U.S. growth companies for the long term. Through independent research, we utilize an investment approach that we believe allows us to look at a business's fundamental characteristics and beyond the current market environment. We invest based on the potential profitability of a business at what we believe are attractive valuations.

During the first four months of the six-month period, U.S. equities continued their record-setting year-long-plus streak of gains. All major indexes notched numerous highs without a pullback of even 3% and market volatility was essentially nonexistent. The bull run ended abruptly in late January. For the last two months of the period, volatility returned as the markets were buffeted by investor concerns that rising inflation could potentially result in faster interest rate hikes, coupled with the threat of a U.S.-China trade war. Meanwhile, the U.S. economy continued to generate slow but steady growth. Inflation leveled off, assuaging investor fears. The unemployment rate stayed low, business and consumer confidence continued to improve, and industrial activity continued to expand. Corporate earnings remained robust, and investors are anticipating continued good news for the upcoming corporate earnings season, boosted in part by corporate tax cuts put into place in December 2017.

Consumer Discretionary, Information Technology, and Financials were the top contributing sectors in the period. Holdings in the Real Estate and Consumer Staples sectors detracted.

CoStar Group, Inc. was the top contributor in the period. Shares of this real estate information and marketing services company increased on excellent business trends, including a major increase in fourth quarter sales compared to last year. We are excited about the upsell of Loopnet Premium Searcher customers to the flagship CoStar product, which we believe can contribute an incremental \$150 million to \$200 million of recurring revenue. We think CoStar has an even larger opportunity to optimize its Premium Lister product, and we expect the recent acquisition of ForRent to be meaningfully accretive.

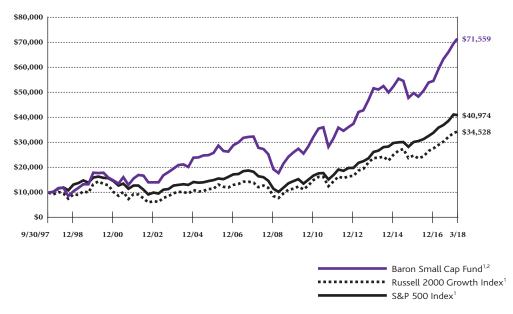

The top detractor was Arch Capital Group Ltd. Early in the period, shares of the specialty insurance and reinsurance company fell amid waning expectations for significant rate increases in the reinsurance market and large losses from catastrophic events in the third quarter. Despite growth in book value per share during the most recent quarter, shares continued to decline in the second half of the period, as industry pricing trends remain challenging and competition is increasing. We continue to own the stock due to Arch's strong management team and underwriting discipline.

The Fund continues to invest in a portfolio of businesses that have better financial characteristics than the benchmark index against which it is compared. These businesses have higher operating profit margins, net margins, EBITDA margins, return on invested capital, return on equity, return on assets, and lower standard deviations of earnings growth. While we do not try to predict short-term macro developments or current events, we believe conditions remain favorable for the U.S. economy and equity markets.

[†] Industry sector group levels are provided by the Global Industry Classification Standard ("GICS"), developed and exclusively owned by MSCI, Inc. and Standard & Poor's Financial Services LLC, unless otherwise stated that they have been classified by the Adviser. All GICS data is provided "as is" with no warranties.

SECTOR BREAKDOWN AS OF MARCH 31, 2018[†] (as a percentage of net assets)

Management's Discussion of Fund Performance

For the six-month period ended March 31, 2018, Baron Small Cap Fund¹ gained 8.15%, while the Russell 2000 Growth Index increased 6.99% and the S&P 500 Index increased 5.84%.

Baron Small Cap Fund invests primarily in small-cap growth companies for the long term. The Fund invests in what we believe are well-run small-cap growth businesses that can be purchased at prices that represent a significant discount to our assessment of future value.

During the first four months of the six-month period, U.S. equities continued their record-setting year-long-plus streak of gains. All major indexes notched numerous highs without a pullback of even 3% and market volatility was essentially nonexistent. The bull run ended abruptly in late January. For the last two months of the period, volatility returned as the markets were buffeted by investor concerns that rising inflation could potentially result in faster interest rate hikes, coupled with the threat of a U.S.-China trade war. Meanwhile, the U.S. economy continued to generate slow but steady growth. Inflation leveled off, assuaging investor fears. The unemployment rate stayed low, business and consumer confidence continued to improve, and industrial activity continued to expand. Corporate earnings remained robust, and investors are anticipating continued good news for the upcoming corporate earnings season, boosted in part by corporate tax cuts put into place in December 2017.

Investments in the Information Technology, Industrials, and Consumer Discretionary sectors were the top contributors to performance. Holdings in Energy and Materials sectors modestly detracted.

GTT Communications, Inc., an enterprise telecommunication services provider, was the top contributor. Shares rose steadily throughout the period, driven by solid financial results and an announcement of a potentially highly accretive \$2.3 billion acquisition of a European competitor. We think the deal will meaningfully increase GTT's scale, allow it to effectively cross-sell to multinational customers, and provide significant cost synergies that could be realized in the next few quarters.

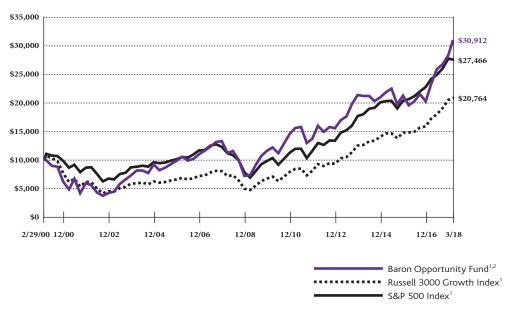

Shares of MACOM Technology Solutions Holdings, Inc., a leading supplier of high performance analog semiconductors, detracted the most in the period due to optical network connector growth rates that repeatedly missed analyst expectations. While we are convinced of MACOM's market potential, we have eliminated our position in the stock in favor of other higher-conviction ideas.

Baron Small Cap Fund invests primarily in classic growth stocks that we believe have significant long-term growth prospects and can be purchased at what we believe are attractive prices because their prospects have not yet been appreciated by investors. We also invest in fallen angels, which are companies that we believe have strong long-term franchises but have disappointed investors with short-term results, creating what we believe is a buying opportunity. A third category of investment is special situations, including spin-offs and recapitalizations, where lack of investor awareness creates opportunities to purchase what we believe are strong businesses at attractive prices.

[†] Industry sector group levels are provided by the Global Industry Classification Standard ("GICS"), developed and exclusively owned by MSCI, Inc. and Standard & Poor's Financial Services LLC, unless otherwise stated that they have been classified by the Adviser. All GICS data is provided "as is" with no warranties.

¹ Performance information reflects results of the Retail Shares.

SECTOR BREAKDOWN AS OF MARCH 31, 2018[†] (as a percentage of net assets)

Management's Discussion of Fund Performance

For the six-month period ended March 31, 2018, Baron Opportunity Fund¹ gained 15.82%, while the Russell 3000 Growth Index gained 9.20% and the S&P 500 Index gained 5.84%.

Baron Opportunity Fund invests primarily in U.S. growth companies that we believe are driving or benefiting from innovation, through development of pioneering, transformative, or technologically advanced products and services. The Fund invests in high growth businesses of any market capitalization, selected for their capital appreciation potential.

During the first four months of the six-month period, U.S. equities continued their record-setting year-long-plus streak of gains. All major indexes notched numerous highs without a pullback of even 3% and market volatility was essentially nonexistent. The bull run ended abruptly in late January. For the last two months of the period, volatility returned as the markets were buffeted by investor concerns that rising inflation could potentially result in faster interest rate hikes, coupled with the threat of a U.S.-China trade war. Meanwhile, the U.S. economy continued to generate slow but steady growth. Inflation leveled off, assuaging investor fears. The unemployment rate stayed low, business and consumer confidence continued to improve, and industrial activity continued to expand. Corporate earnings remained robust, and investors are anticipating continued good news for the upcoming corporate earnings season, boosted in part by corporate tax cuts put into place in December 2017.

Investments in the Information Technology, Health Care, and Consumer Discretionary sectors contributed the most during the period. No sectors detracted.

Shares of Amazon.com, Inc. contributed the most to performance in the period. Shares of the retail behemoth and cloud computing services provider appreciated on strong financial results as it continued to invest in video streaming and international expansion. Amazon's "flywheel effect" of growing participation from Prime members driving further activity on Amazon.com also persisted. Its cloud business is now highly profitable and remains the category leader in market share. We believe the company's continuing investments in new and potentially large segments such as grocery, auto parts, e-finance, and apparel could create additional growth opportunities.

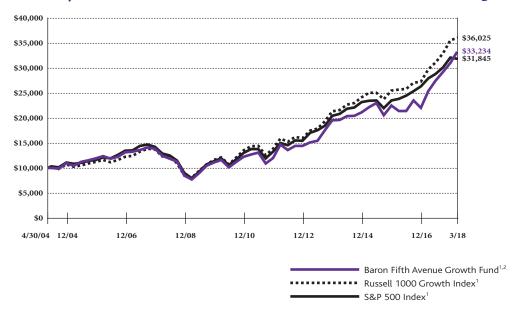

Electric vehicle manufacturer Tesla, Inc. detracted the most from performance. Shares declined on a series of events, including the Model 3 ramp-up that was slower than market expectations, a government investigation into a fatal Model X accident, a Moody's downgrade of Tesla's bond rating, and a recall of more than 100,000 Model S vehicles. Although these occurrences impacted short-term results, we maintain our long-term investment thesis on Tesla based on its potential to disrupt multiple large markets.

We remain focused on finding unique businesses across different segments of the economy that we believe offer long-term secular growth, sustainable competitive advantages, high-quality management teams, and attractive stock prices. We believe that investment returns for stocks are driven by earnings growth, and therefore direct our research towards understanding the drivers of business profit and projecting future profit growth as accurately as we can.

SECTOR BREAKDOWN AS OF MARCH 31, 2018[†] (as a percentage of net assets)

Management's Discussion of Fund Performance

For the six-month period ended March 31, 2018, Baron Fifth Avenue Growth Fund¹ gained 13.69%, while the Russell 1000 Growth Index rose 9.39% and the S&P 500 Index increased 5.84%.

Baron Fifth Avenue Growth Fund focuses on identifying and investing in what we believe are unique companies with sustainable competitive advantages that have the ability to redeploy capital at high rates of return. The portfolio is constructed on a bottom-up basis, with the quality of ideas and conviction level the most important determinants of the size of

each investment. We expect our highest conviction businesses to have meaningful weight in the portfolio. Sector weightings are incidental to portfolio construction, and exposure to any sector is a result of stock selection.

During the first four months of the six-month period, U.S. equities continued their record-setting year-long-plus streak of gains. All major indexes notched numerous highs without a pullback of even 3% and market volatility was essentially nonexistent. The bull run ended abruptly in late January. For the last two months of the period, volatility returned as the markets were buffeted by investor concerns that rising inflation could potentially result in faster interest rate hikes, coupled with the threat of a U.S.-China trade war. Meanwhile, the U.S. economy continued to generate slow but steady growth. Inflation leveled off, assuaging investor fears. The unemployment rate stayed low, business and consumer confidence continued to improve, and industrial activity continued to expand. Corporate earnings remained robust, and investors are anticipating continued good news for the upcoming corporate earnings season, boosted in part by corporate tax cuts put into place in December 2017.

Consumer Discretionary, Information Technology, Health Care, and Financials were the top contributing sectors in the period. The Real Estate sector detracted.

The top contributor to performance was Amazon.com, Inc. Shares of the world's largest retailer and cloud services provider rose on strong financial results as it continued to invest in video streaming and international expansion. Amazon's "flywheel effect" of growing participation from Prime members driving further activity on Amazon.com also persisted. Its cloud business is now highly profitable and remains the category leader in market share. We believe the company's continuing investments in new and potentially large segments such as grocery, auto parts, e-finance, and apparel could create additional growth opportunities.

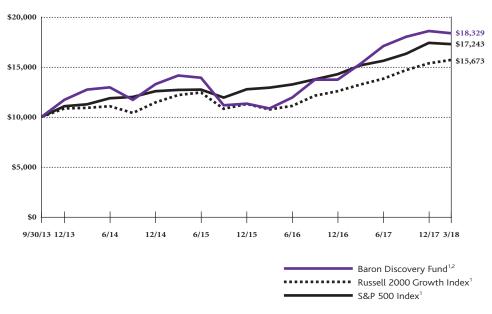

The top detractor was Expedia Group, Inc. Shares of the world's second largest global travel agency declined in the period following the company's decision to accelerate investments throughout 2018, including the expansion of properties in Europe, cloud migration, and brand marketing of its vacation rental marketplace. While analysts expect these investments to adversely impact profitability in 2018, we think they could lead to a higher growth rate for Expedia long term. Cloud investments should reduce the company's capital expenditures and yield higher levels of free cash flow, in our view.

The Fund seeks to manage risk by focusing on business risk (competition, management, regulations), valuation risk (purchase price providing a large enough margin of safety), financial risk (leverage and capital structure), and analysis risk (our assumptions). Our objective is not to predict how markets may perform in a given year. Instead, we aim to create a portfolio of unique companies with different end markets because, in our experience, this is the best way to manage market risk over time.

[†] Industry sector group levels are provided by the Global Industry Classification Standard ("GICS"), developed and exclusively owned by MSCI, Inc. and Standard & Poor's Financial Services LLC, unless otherwise stated that they have been classified by the Adviser. SECTOR BREAKDOWN AS OF MARCH 31, 2018[†] (as a percentage of net assets)

Management's Discussion of Fund Performance

For the six-month period ended March 31, 2018, Baron Discovery Fund¹ increased 1.92%, while the Russell 2000 Growth Index rose 6.99% and the S&P 500 Index gained 5.84%.

Baron Discovery Fund invests primarily in small-sized U.S. companies with significant growth potential and market capitalizations up to the weighted median market capitalization

of the Russell 2000 Growth Index at reconstitution, or companies with market capitalizations up to \$1.5 billion, whichever is larger. The Fund invests for the long term at attractive valuations in companies with appropriately capitalized, open-ended growth opportunities, exceptional leadership, and sustainable competitive advantages.

During the first four months of the six-month period, U.S. equities continued their record-setting year-long-plus streak of gains. All major indexes notched numerous highs without a pullback of even 3% and market volatility was essentially nonexistent. The bull run ended abruptly in late January. For the last two months of the period, volatility returned as the markets were buffeted by investor concerns that rising inflation could potentially result in faster interest rate hikes, coupled with the threat of a U.S.-China trade war. Meanwhile, the U.S. economy continued to generate slow but steady growth. Inflation leveled off, assuaging investor fears. The unemployment rate stayed low, business and consumer confidence continued to improve, and industrial activity continued to expand. Corporate earnings remained robust, and investors are anticipating continued good news for the upcoming corporate earnings season, boosted in part by corporate tax cuts put into place in December 2017.

The Health Care, Consumer Discretionary, and Industrials sectors contributed the most to performance in the period. Information Technology, Real Estate, and Energy were the top detracting sectors.

The top contributor was Sage Therapeutics, Inc., a company focused on developing novel drugs for central nervous system disorders. Shares increased sharply in early December on news of positive clinical trial results of lead assets in postpartum depression and major depression. Additionally, Sage announced an expansion into disease indications like Parkinson's and tremor. We expect maturation of the pipeline married to eventual commercial execution to continue to drive share appreciation.

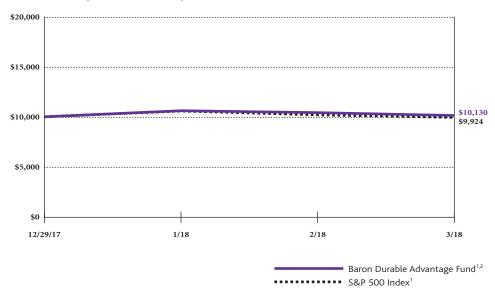

The top detractor was MACOM Technology Solutions Holdings, Inc. Shares of the analog semiconductor producer lost value after the company announced sales growth and guidance that missed investor expectations, largely as a result of lower sales of optical data connection components to Chinese telecommunications customers. While we are convinced of MACOM's market potential, we have significantly reduced our position in the stock in favor of other higher-conviction ideas.

We think the long-term fundamentals of the companies in our portfolio remain strong. The businesses we own are high quality, innovative and run by excellent management teams. We are optimistic that they will be significantly bigger next year than they are today and that this growth can continue for years. There is, of course, no guarantee that this will be the case.

[†] Industry sector group levels are provided by the Global Industry Classification Standard ("GICS"), developed and exclusively owned by MSCI, Inc. and Standard & Poor's Financial Services LLC, unless otherwise stated that they have been classified by the Adviser. All GICS data is provided "as is" with no warranties.

SECTOR BREAKDOWN AS OF MARCH 31, 2018[†] (as a percentage of net assets)

Management's Discussion of Fund Performance

Since its launch on December 29, 2017 through March 31, 2018, Baron Durable Advantage Fund¹ increased 1.30%, while the S&P 500 Index declined 0.76%.

Baron Durable Advantage Fund invests mainly in large-sized U.S. companies with competitive advantages and market capitalizations above the smallest market cap stock in the top 85% of the Russell 1000 Growth Index at reconstitution, or companies with market capitalizations above \$10 billion, whichever is smaller. The Fund emphasizes businesses with excess free cash flow that can be returned to shareholders.

After an exceptionally strong start in 2018, volatility returned in late January on concerns that inflation was rising more quickly than investors had expected, potentially resulting in faster interest rate increases. In February and March, markets were buffeted by investor concerns that rising inflation could potentially result in faster interest rate hikes, coupled with the threat of a U.S.-China trade war. Meanwhile, the U.S. economy continued to generate slow but steady growth. Inflation leveled off, assuaging investor fears. The unemployment rate stayed low, business and consumer confidence continued to improve, and industrial activity continued to expand. Corporate earnings remained robust, and investors are anticipating continued good news for the upcoming corporate earnings season, boosted in part by corporate tax cuts put into place in December 2017.

In the period since the Fund's inception, Information Technology and Financials sectors contributed to performance. Health Care, Consumer Discretionary, and Real Estate were the top detracting sectors.

Mastercard Incorporated, a leading global payment network, was the top contributor in the three months since the Fund's launch. The stock appreciated after the company reported fourth quarter results that beat Street expectations, with 20% revenue growth and 33% EPS growth. Management raised guidance for the 2016-2018 period, which now calls for 13%-14% revenue growth and mid-20% EPS growth. We believe Mastercard is a prime beneficiary of global consumer spending growth and the secular shift from cash to electronic payments.

Naspers Limited, a South African company that operates pay television, print media, and an internet division, was the top detractor. Most of Naspers' value is attributed to its large ownership of China-based Tencent. Naspers' shares fell due to a widening gap between the value of its Tencent investment and the total net asset value of Naspers. This difference resulted from losses posted by late-stage venture investments, which comprise Naspers' business outside of Tencent. We retain conviction. Naspers plans to sell a part of its Tencent stake to focus on accelerating the venture segment growth.

Our goal is to invest in large-cap companies with strong and durable competitive advantages, proven track records of successful capital allocation, high returns on invested capital, and high free cash flow generation, a significant portion of which is regularly returned to the shareholders in the form of either dividends or share repurchases. We hope to maximize long-term returns without taking significant risks of permanent loss of capital. We are optimistic about the prospects of the companies in which we are invested and will always continue to search for new ideas and opportunities.

[†] Industry sector group levels are provided by the Global Industry Classification Standard ("GICS"), developed and exclusively owned by MSCI, Inc. and Standard & Poor's Financial Services LLC, unless otherwise stated that they have been classified by the Adviser. NOTES TO FINANCIAL STATEMENTS (Unaudited)

1. ORGANIZATION

Baron Investment Funds Trust (the "Trust") is registered under the Investment Company Act of 1940, as amended (the "1940 Act"), as an open-end management investment company established as a Massachusetts business trust on February 19, 1987, and accordingly follows the investment company accounting and reporting guidance of the Financial Accounting Standards Board ("FASB") Accounting Standard Codification Topic 946 Financial Services – Investment Companies. The Trust currently offers seven series (individually, a "Fund" and collectively, the "Funds"): Baron Asset Fund, Baron Growth Fund, Baron Small Cap Fund, Baron Opportunity Fund, Baron Fifth Avenue Growth Fund, Baron Discovery Fund and Baron Durable Advantage Fund.

Each Fund offers Retail Shares, Institutional Shares and R6 Shares. Each class of shares differs only in its ongoing fees, expenses and eligibility requirements. Retail Shares are offered to all investors. Institutional Shares are for investments in the amount of \$1 million or more per Fund. Institutional Shares are intended for certain financial intermediaries that offer shares of Baron Funds through fee-based platforms, retirement platforms or other platforms. R6 Shares are for investments in the amount of \$5 million or more per Fund. R6 Shares are available only to qualified 401(a) plans (including 401(k) plans, Keogh plans, profit sharing plans, money purchase pension plans, target benefit plans, defined benefit pension plans and Taft-Hartley multi-employer pension plans), endowment funds and foundations, any state, county or city, or its instrumentality, department, authority, or agency, 457 plans, including 457(a) governmental entity plans and tax-exempt plans, accounts registered to insurance companies, trust companies and bank trust departments, investment companies, both affiliated and not affiliated with the adviser, and any entity that is considered a corporation for tax purposes, including corporate non-qualified deferred compensation plans of such corporations. Each class of shares has equal rights to earnings and assets, except that each class bears different expenses for distribution and shareholder servicing. Each Fund's investment income, realized and unrealized gains or losses on investments and foreign currency, and expenses other than those attributable to a specific class are allocated to each class based on its relative net assets. Each class of shares has exclusive voting rights with respect to matters that affect just that class. Baron Durable Advantage Fund commenced investment operations on January 2, 2018.

The investment goals of the Funds are as follows:

Baron Asset Fund seeks capital appreciation through long-term investments primarily in securities of medium-sized companies with undervalued assets or favorable growth prospects.

Baron Growth Fund seeks capital appreciation through long-term investments primarily in securities of small-sized growth companies.

Baron Small Cap Fund seeks capital appreciation through investments primarily in securities of small-sized growth companies.

Baron Opportunity Fund seeks capital appreciation through investments primarily in growth companies that benefit from technology advances.

Baron Fifth Avenue Growth Fund seeks capital appreciation through investments primarily in securities of large-sized growth companies.

Baron Discovery Fund seeks capital appreciation through investments primarily in securities of small-sized growth companies.

Baron Durable Advantage Fund seeks capital appreciation through long-term investments primarily in securities of large-sized companies.

2. SIGNIFICANT ACCOUNTING POLICIES

The following is a summary of significant accounting policies followed by the Funds. The policies are in conformity with accounting principles generally accepted in the United States of America ("GAAP"). The preparation of financial statements in accordance with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the amounts of income and expenses during the period. Actual results could differ from those estimates. Events occurring subsequent to the date of the Statements of Assets and Liabilities and through the date of issuance of the financial statements have been evaluated for adjustment to or disclosure in the financial statements.

a) Security Valuation. The Funds' share prices or net asset values ("NAV") are calculated as of the scheduled close of the regular trading session (usually 4 p.m. E.T. or such other time as of which the Funds' NAVs are calculated (the "NAV Calculation Time")) on the New York Stock Exchange (the "Exchange") on any day the Exchange is scheduled to be open. Portfolio securities traded on any national stock exchange are valued based on the last sale price on the exchange where such shares are principally traded. For securities traded on NASDAQ, the Funds use the NASDAQ Official Closing Price. If there are no sales on a given day, the value of the security may be the average of the most recent bid and asked quotations on such exchange or the last sale price from a prior day. Where market quotations are not readily available, or, if in BAMCO, Inc.'s (the "Adviser") judgment, they do not accurately reflect the fair value of a security, or an event occurs after the market close but before the Funds are priced that materially affects the value of a security, the security will be valued by the Adviser using policies and procedures approved by the Board of Trustees (the "Board"). The Adviser has a Fair Valuation Committee (the "Committee") comprised of senior management representatives and the Committee reports to the Board every quarter. Factors the Committee may consider when valuing a security include whether a current price is stale, there is recent news, the security is thinly traded, transactions are infrequent or quotations are genuine. There can be no guarantee, however, that a fair valuation used by the Funds on any given day will more accurately reflect the market value of an investment than the closing price of such investment in its market. U.S. Government obligations, money market instruments, and other debt instruments held by the Funds with a remaining maturity of 60 days or less are generally valued at amortized cost, which approximates fair value. Debt instruments having a greater remaining maturity will be valued on the basis of prices obtained from a pricing service approved by the Board or at the mean of the bid and ask prices from the dealer maintaining an active market in that security. The value of the Funds' investments in convertible bonds is determined primarily by obtaining valuations from independent pricing services based on readily available bid quotations or, if quotations are not available, by methods which include various considerations such as yields or prices of securities of comparable quality, coupon, maturity and type; indications as to values from dealers; and general market conditions. Other inputs used by an independent pricing service to value convertible bonds generally include underlying stock data, conversion premiums, listed bond and preferred stock prices and other market information which may include benchmark curves, trade execution data, and sensitivity analysis, when available. Open-end investment companies, including securities lending collateral invested in registered investment company money market funds, are valued at their NAV each day.

NOTES TO FINANCIAL STATEMENTS (Unaudited) (Continued)

2. SIGNIFICANT ACCOUNTING POLICIES (Continued)

Non-U.S. equity securities are valued on the basis of their most recent closing market prices and translated into U.S. dollars at the NAV Calculation Time, except under the circumstances described below. Most foreign markets close before the NAV Calculation Time. For securities primarily traded in the Far East, for example, the most recent closing prices may be as much as 15 hours old at the NAV Calculation Time. As a result, the Adviser may use a third-party pricing service to assist in determining fair value of foreign securities. This service utilizes a systematic methodology in making fair value estimates. The Adviser may also fair value securities in other situations, for example, when a particular foreign market is closed but the Funds are open. The Adviser cannot predict how often it will use closing prices or how often it will adjust those prices. As a means of evaluating its fair value process, the Adviser routinely compares closing market prices, the next day's opening prices in the same markets, and the adjusted prices. Other mutual funds may adjust the prices of their securities by different amounts.

- b) Securities Transactions, Investment Income and Expense Allocation. Securities transactions are recorded on a trade date basis. Realized gain and loss from securities transactions are recorded on an identified cost basis for financial reporting and federal income tax purposes. Dividend income is recognized on the ex-dividend date and interest income is recognized on an accrual basis, which includes the accretion of discounts and amortization of premiums. Certain dividends from foreign securities will be recorded as soon as the Funds are informed of the dividend if such information is obtained subsequent to the ex-dividend date. Distributions received from certain investments held by the Funds may be comprised of dividends, realized gains and returns of capital. The Funds originally estimate the expected classification of such payments. The amounts may subsequently be reclassified upon receipt of information from the issuer. The Funds are charged for those expenses of the Trust that are directly attributable to each Fund, such as advisory and custodian fees. Expenses that are not directly attributable to a Fund are typically allocated among the Funds in proportion to their respective net assets.
- c) Foreign Currency Translations. Values of assets and liabilities denominated in foreign currencies are translated into U.S. dollars using the price of such currencies at the time the NAV is determined. Purchases and sales of investments and dividend income are converted at the prevailing rate of exchange on the respective dates of such transactions. Net realized gain (loss) on foreign currency transactions includes gain (loss) arising from the fluctuation in the exchange rates between trade and settlement dates on security transactions and currency gain (loss) between the accrual and payment dates on dividends and foreign withholding taxes. The Funds do not isolate that portion of the results of operations resulting from changes in foreign exchange rates on investments from the fluctuations arising from changes in market prices of securities held. Such fluctuations are included with the net realized and unrealized gain or loss from investments and foreign currency transactions on the Statements of Operations. The Funds may invest in foreign securities and foreign currency transactions that may involve risks not associated with domestic investments as a result of the level of governmental supervision and regulation of foreign securities markets and the possibility of political or economic instability, among others.

Pursuant to U.S. federal income tax regulations, gains and losses from certain foreign currency transactions and the foreign currency portion of gains and losses realized on sales and maturities of foreign denominated debt securities are generally treated as ordinary income for U.S. federal income tax purposes.

d) Securities Lending. The Funds may lend securities to certain brokers under the terms of a master netting agreement. Upon such loans, the Funds receive collateral which is maintained by the custodian. The Funds may pay fees to the custodian for administering the securities lending program. The Funds earn interest on such collateral and earn income in the form of negotiated lenders' fees, both of which are included in securities lending income in the Statements of Operations. Securities loaned are required to be secured at all times by collateral equal to at least 102% of the market value of the securities loaned. Risks may arise upon entering into securities lending to the extent that the value of the collateral is less than the value of the securities loaned due to the changes in the value of collateral or the loaned securities. The collateral is marked-to-market daily and settled on the next business day. The Funds may receive collateral in the form of cash or other eligible securities, such as a letter of credit issued by a U.S. bank or securities issued or guaranteed by the U.S. government. Securities purchased with cash collateral are subject to the risks inherent in investing in these securities.

The Funds did not participate in securities lending/borrowing activities at March 31, 2018.

- e) Repurchase Agreements. The Funds may invest in repurchase agreements, which are short term investments whereby the Funds acquire ownership of a debt security and the seller agrees to repurchase the security at a future date at a specified price. When entering into repurchase agreements, it is the Funds' policy that their custodian take possession of the underlying collateral securities, the market value of which, at all times, equals at least 102% of the principal amount of the repurchase transaction. To the extent that any repurchase transaction exceeds one business day, the value of the collateral is marked-to-market to ensure the adequacy of the collateral. If the seller defaults and the market value of the collateral declines or if bankruptcy proceedings are commenced with respect to the seller of the security, realization of the collateral by the Funds may be delayed or limited. The information required to be disclosed by ASU No. 2011-11 for the Funds' investments in repurchase agreements at March 31, 2018, including the fair value of the repurchase agreement and the amount of collateral, can be found in each respective Fund's Statement of Net Assets.
- f) Master Limited Partnerships. The Funds may invest in master limited partnerships ("MLPs"). MLPs are limited partnerships or limited liability companies, whose partnership units or limited liability interests are listed and traded on a U.S. securities exchange, and are treated as publicly traded partnerships for federal income tax purposes. To qualify to be treated as a partnership for tax purposes, an MLP must receive at least 90% of its income from qualifying sources as set forth in Section 7704(d) of the Internal Revenue Code of 1986, as amended. These qualifying sources include interest, dividend, real property rent, gain from sale or other disposition of real property and income from activities such as the exploration, development, mining, production, processing, refining, transportation, storage and marketing of mineral or natural resources.
- g) Federal and Foreign Income Taxes. The Trust treats each Fund as a separate entity for federal income tax purposes. Each Fund intends to meet the requirements of the Internal Revenue Code of 1986, as amended, applicable to regulated investment companies, and to distribute to its shareholders substantially all of its net investment income and any net realized capital gains at least annually. None of the Funds will be subject to federal or state income taxes to the extent that they qualify as regulated investment companies and substantially all of their income is distributed.

The Funds may be subject to foreign taxes on income and gains on investments that are accrued based upon the Funds' understanding of the tax rules and regulations that exist in the countries in which the Funds invest. Foreign governments may also impose taxes or other payments on investments with respect to foreign securities. Such taxes are accrued as applicable.

NOTES TO FINANCIAL STATEMENTS (Unaudited) (Continued)

2. SIGNIFICANT ACCOUNTING POLICIES (Continued)

h) Restricted Securities. The Funds may invest in securities that are restricted as to public sale in accordance with the Securities Act of 1933. Such assets are valued by the Adviser pursuant to policies and procedures approved by the Board.

- i) Distributions to Shareholders. Income and capital gain distributions to shareholders are determined in accordance with income tax regulations which may differ from GAAP. These differences are primarily due to differing treatments for net investment loss, foreign currency gains and losses, reclassification of distributions, partnership basis adjustments, income from passive foreign investment companies, late year loss deferral, post-October loss deferral and wash sale losses deferred.
- j) Commitments and Contingencies. In the normal course of business, the Funds may enter into contracts and agreements that contain a variety of representations and warranties, which provide general indemnification. The maximum exposure to the Funds under these agreements is unknown, as this would involve future claims that may be made against the Funds that have not yet occurred. However, based on experience, the Funds expect the risk of loss to be remote.
- k) Cash and Cash Equivalents. The Funds consider all short term liquid investments with a maturity of three months or less when purchased to be cash equivalents.

3. PURCHASES AND SALES OF SECURITIES

Purchases and sales of securities, other than short term securities, for the six months ended March 31, 2018 were as follows:

| Fund | Purchases | Sales |
|--------------------------------|---------------|---------------|
| Baron Asset Fund | \$164,904,147 | \$228,094,664 |
| Baron Growth Fund | 99,092,773 | 448,632,728 |
| Baron Small Cap Fund | 369,893,706 | 515,705,405 |
| Baron Opportunity Fund | 74,321,281 | 53,399,461 |
| Baron Fifth Avenue Growth Fund | 29,688,632 | 13,595,176 |
| Baron Discovery Fund | 85,218,744 | 109,527,223 |
| Baron Durable Advantage Fund | 2,885,838 | _ |

During the period, Baron Asset Fund transferred securities through an in-kind redemption of \$22,927,902, generating a realized gain of \$12,813,759, which is included in net realized gain on investments sold in the Statement of Operations.

4. INVESTMENT ADVISORY FEES AND OTHER TRANSACTIONS WITH AFFILIATES

a) Investment Advisory Fees. The Adviser, a wholly owned subsidiary of Baron Capital Group, Inc. ("BCG"), serves as investment adviser to the Funds. As compensation for services rendered, the Adviser receives a fee payable monthly from Baron Asset Fund, Baron Growth Fund, Baron Small Cap Fund, Baron Opportunity Fund and Baron Discovery Fund equal to 1% per annum of the average daily net assets of the respective Funds. The Adviser receives a fee payable monthly equal to 0.70% per annum of Baron Fifth Avenue Growth Fund's average daily net assets and 0.65% per annum of Baron Durable Advantage Fund's average daily net assets.

For Baron Opportunity Fund, Baron Fifth Avenue Growth Fund, Baron Discovery Fund and Baron Durable Advantage Fund, the Adviser has contractually agreed to reduce its fee, to the extent required to limit the net annual operating expense ratio (excluding portfolio transaction costs, interest, dividend and extraordinary expenses), as follows.

| | | nnual Operatin kpense Ratio Ca | _ |
|---|------------------|-----------------------------------|----------------|
| Fund | Retail Shares | Institutional Shares | R6 Shares |
| Baron Opportunity Fund Baron Fifth Avenue Growth Fund* | 1.50% 1.00% | 1.25% 0.75% | 1.24% 0.75% |
| Baron Discovery Fund | 1.35% | 1.10% | 1.09% |
| Baron Durable Advantage Fund | 0.95% | 0.70% | 0.70% |

^{*} Prior to November 15, 2017, the Adviser had contractually agreed to reduce its fee for Baron Fifth Avenue Growth Fund to the extent required to limit the net annual operating expense ratio (excluding Portfolio transaction costs, interest, dividend and extraordinary expenses) to 1.10%, 0.85% and 0.84% of average daily net assets of the Retail Shares, Institutional Shares and R6 Shares, respectively.

- b) Distribution Fees. Baron Capital, Inc. ("BCI"), a wholly owned subsidiary of BCG, is a registered limited purpose broker-dealer and the distributor of the Funds' shares. The Funds are authorized to pay BCI a distribution fee payable monthly pursuant to a distribution plan under Rule 12b-1 of the 1940 Act equal to 0.25% per annum of the Retail Shares' average daily net assets of the respective Funds.
- c) Trustee Fees. Certain Trustees of the Trust may be deemed to be affiliated with, or interested persons (as defined by the 1940 Act) of the Funds' Adviser or of BCI. None of the Trustees so affiliated received compensation for his or her services as a Trustee of the Trust. None of the Funds' officers received compensation from the Funds for their services as an officer.
- d) Fund Accounting and Administration Fees. The Funds have entered into an agreement with State Street Bank and Trust Company ("State Street") to perform accounting and certain administrative services. State Street is compensated for fund accounting services based on a percentage of the Funds' net assets, subject to certain minimums plus fixed annual fees for the administrative services.

NOTES TO FINANCIAL STATEMENTS (Unaudited) (Continued)

4. INVESTMENT ADVISORY FEES AND OTHER TRANSACTIONS WITH AFFILIATES (Continued)

e) Cross Trades. The Funds are permitted to purchase securities from, or sell securities to, other Funds within the Trust, other funds in the Baron Select Funds, and other entities advised or subadvised by the Adviser, pursuant to "Cross-Trading" Procedures adopted by the Board. These procedures have been designed to ensure that any cross-trade of securities by the respective Baron Fund from or to another fund/other entity that is or could be considered an affiliate of a Fund under certain limited circumstances by virtue of having a common investment adviser, common officers, or common trustees complies with Rule 17a-7 under the 1940 Act. Further, as defined under these procedures, each cross-trade is effected at the current market price and with no commissions. Pursuant to these procedures, for the six months ended March 31, 2018, the Funds engaged in the following cross-trades:

| | Purchases | Sales | Net Realized Gains (Losses) |
|------------------------|-------------|-------------|--------------------------------|
| Baron Growth Fund | \$9,825,000 | \$3,345,583 | \$49,672 |
| Baron Opportunity Fund | _ | 43,484 | 4,934 |

5. LINE OF CREDIT

The Funds, together with other funds in Baron Select Funds (except Baron Partners Fund), participate in a committed line of credit agreement with State Street to be used for temporary purposes, primarily for financing redemptions. Each fund may borrow up to the lesser of \$100 million or the maximum amount each fund may borrow under the 1940 Act, the limitations included in each fund's prospectus, or any limit or restriction under any law or regulation to which each fund is subject or any agreement to which each fund is a party; provided that the aggregate outstanding principal amount of all loans to any of the funds may not exceed \$100 million. Interest is charged to each fund, based on its borrowings, at a rate per annum equal to the higher of the Overnight Federal Funds Rate or the one month LIBOR Rate plus a margin of 1.00%. An upfront fee of 0.05% is incurred on the commitment amount and a commitment fee of 0.20% per annum is incurred on the unused portion of the line of credit. Both fees are allocated to the participating funds based on their relative net assets.

During the six months ended March 31, 2018, Baron Growth Fund, Baron Opportunity Fund and Baron Discovery Fund had borrowings under the line of credit and incurred interest expense of \$89,093, \$1,368 and \$2,800, respectively. For the 66 days during which there were borrowings, Baron Growth Fund had an average daily balance on the line of credit of \$18.7 million at a weighted average interest rate of 2.64%. For the 5 days during which there were borrowings, Baron Opportunity Fund had an average daily balance on the line of credit of \$4.4 million at a weighted average interest rate of 2.28 %. For the 9 days during which there were borrowings, Baron Discovery Fund had an average daily balance on the line of credit of \$4.2 million at a weighted average interest rate of 2.72%.

6. RESTRICTED SECURITIES

At March 31, 2018, investments in securities included securities that are restricted and/or illiquid. Restricted securities are often purchased in private placement transactions, are not registered under the Securities Act of 1933, may have contractual restrictions on resale and are valued pursuant to the policies and procedures for fair value pricing approved by the Board. A security may be considered illiquid if it lacks a readily available market or if its valuation has not changed for a certain period of time. The Funds may receive more or less than this valuation in an actual sale and that difference could be material. At March 31, 2018, the Funds held investments in restricted and/or illiquid securities that were valued pursuant to policies and procedures for fair value pricing as follows:

| | Baron Asset Fund | | | |
|---|----------------------|-----------|--|--|
| Name of Issuer | Acquisition Date(s) | Value | | |
| Private Partnerships Windy City Investments Holdings, L.L.C. (Cost \$0) (0.01% of Net Assets) | 11/13/2007-1/27/2011 | \$183,461 | | |
| | Baron Growth Fund | | | |
| Name of Issuer | Acquisition Date(s) | Value | | |
| Private Partnerships Windy City Investments Holdings, L.L.C. (Cost \$0) (0.00% of Net Assets) | 11/13/2007-1/27/2011 | \$ 61,755 | | |
| | Baron Discovery | Fund | | |
| Name of Issuer | Acquisition Date(s) | Value | | |
| Warrants Barfresh Food Group, Inc., Warrants, Exp 3/13/2020 (Cost \$0) (0.03% of Net Assets) | 2/23/2015 | \$ 75,300 | | |

NOTES TO FINANCIAL STATEMENTS (Unaudited) (Continued)

7. FAIR VALUE MEASUREMENTS

Fair value is defined by GAAP as the price that the Funds would receive upon selling an investment in a timely transaction to an independent buyer in the principal or most advantageous market for the investment. GAAP provides a three-tier hierarchy to maximize the use of observable market data and minimize the use of unobservable inputs and to establish classification of fair value measurements for disclosure purposes. Inputs refer broadly to the assumptions that market participants would use in pricing the asset or liability. Inputs may be observable or unobservable. Observable inputs are based on market data obtained from sources independent of the Funds. Unobservable inputs are inputs that reflect the Funds' own assumptions based on the best information available in the circumstances. The three-tier hierarchy of inputs is summarized in the three broad Levels listed below.

- · Level 1 quoted prices in active markets for identical assets or liabilities;
- Level 2 prices determined using other inputs that are observable either directly or indirectly through corroboration with observable market data (which could include quoted prices for similar assets or liabilities, interest rates, credit risk, etc.);
- Level 3 prices determined using unobservable inputs when quoted prices or observable inputs are unavailable, such as when there is little or no market activity for an asset or liability (unobservable inputs reflect each Fund's own assumptions in determining the fair value of assets or liabilities and would be based on the best information available).

The inputs or methodology used for valuing securities are not necessarily an indication of the risk associated with investing in those securities. For example, non-U.S. securities, with markets that close hours before the Funds value their holdings, may require revised valuations due to significant movement in the U.S. markets. Since these values are not obtained from quoted prices in an active market, such securities are reflected as Level 2.

The Funds have procedures to determine the fair value of securities and other financial instruments for which market prices are not readily available or which may not be reliably priced. Under these procedures, the Funds primarily employ a market-based approach that may use related or comparable assets or liabilities, recent transactions, market multiples, book values, and other relevant information for the investment to determine its fair value. The Funds may also use an income-based valuation approach in which the anticipated future cash flows of the investment are discounted to calculate fair value. Discounts may also be applied due to the nature or duration of any restrictions on the disposition of the investments. Due to the inherent uncertainty of valuations of such investments, the fair values may differ significantly from the values that would have been used had an active market existed.

The following is a summary of the inputs used as of March 31, 2018 in valuing the Funds' investments carried at fair value:

| | | Baron Ass | set Fund | |
|---|--|--|-------------------------------------|---|
| iption | Quoted Prices in Active Markets for Identical Assets (Level 1) | Other Observable Inputs (Level 2) | Unobservable Inputs (Level 3) | Total |
| mmon Stocks† vate Partnerships ort Term Investments | \$ 3,141,359,547 — — | \$— — 55,557,549 | \$ — 183,461 — | \$ 3,141,359,547 183,461 55,557,549 |
| al Investments | \$3,141,359,547 | \$55,557,549 | \$183,461 | \$3,197,100,557 |

Transfers between Levels 1, 2 or 3, if any, are recognized at ending value on March 31, 2018. There have been no transfers in and out of Level 1, 2 or 3 fair value measurements for the Fund for the six months ended March 31, 2018.

| | Baron Growth Fund | | | | | |
|---|--|--|-------------------------------------|--|--|--|
| Description | Quoted Prices in Active Markets for Identical Assets (Level 1) | Other Observable Inputs (Level 2) | Unobservable Inputs (Level 3) | Total | | |
| Common Stocks† Preferred Stocks Private Partnerships Short Term Investments | \$ 6,107,495,548 — — — | \$ — 15,870,172 — 11,487,931 | \$ — — 61,755 — | \$ 6,107,495,548 15,870,172 61,755 11,487,931 | | |
| Total Investments | \$6,107,495,548 | \$27,358,103 | \$61,755 | \$6,134,915,406 | | |

Transfers between Levels 1, 2 or 3, if any, are recognized at ending value on March 31, 2018. There have been no transfers in and out of Level 1, 2 or 3 fair value measurements for the Fund for the six months ended March 31, 2018.

NOTES TO FINANCIAL STATEMENTS (Unaudited) (Continued)

8. INCOME TAXES AND DISTRIBUTIONS TO SHAREHOLDERS

Federal income tax regulations differ from GAAP. Therefore, distributions determined in accordance with tax regulations may differ in amount or character from net investment income and net realized gain for financial reporting purposes. Net investment income (loss) and net realized and unrealized gain (loss) differ for financial statement and tax purposes due to differing treatments of net investment loss, foreign currency gains and losses, reclassification of distributions, partnership basis adjustments, income from passive foreign investment companies, late year loss deferral, post-October loss deferral, and wash sale losses deferred. Financial reporting records are adjusted for permanent book/tax differences to reflect tax character. Financial records are not adjusted for temporary differences.

As of March 31, 2018, the components of net assets on a tax basis were as follows:

| | Baron Asset Fund | Baron Growth Fund | Baron Small Cap Fund | Baron Opportunity Fund | Baron Fifth Avenue Growth Fund | Baron Discovery Fund | Baron Durable Advantage Fund |
|--|------------------------------|-------------------------------|-------------------------------|------------------------------|--------------------------------------|----------------------------|------------------------------------|
| Cost of investments | \$1,233,357,374 | \$2,039,530,904 | \$2,030,559,074 | \$202,102,371 | \$109,002,071 | \$183,804,825 | \$2,885,838 |
| Gross tax unrealized appreciation Gross tax unrealized depreciation | 1,972,600,660 (8,857,477) | 4,134,524,613 (39,140,111) | 2,213,706,702 (26,187,703) | 137,168,462 (3,740,770) | 118,105,177 (530,361) | 50,653,789 (8,868,561) | 87,552 (93,728) |
| Net tax unrealized appreciation (depreciation) | 1,963,743,183 | 4,095,384,502 | 2,187,518,999 | 133,427,692 | 117,574,816 | 41,785,228 | (6,176) |

As of September 30, 2017, the Funds had capital loss carryforwards expiring as follows:

| | Baron Asset Fund | Baron Growth Fund | Baron Small Cap Fund | Baron Opportunity Fund | Baron Fifth Avenue Growth Fund | Baron Discovery Fund |
|--|---------------------|----------------------------|----------------------------|------------------------------|---------------------------------------|----------------------------------|
| Short term capital loss carryforwards: September 30, 2018 No expiration date | \$ <u> </u> | \$ <u>—</u> \$ <u>—</u> | \$ — — \$ — | \$ <u>-</u> \$ <u>-</u> | \$ 85,567 5,137,591 \$5,223,158 | \$ — 4,597,889 \$4,597,889 |

The tax character of distributions paid during the six months ended March 31, 2018 and for the fiscal year ended September 30, 2017:

| | | nths Ended 31, 2018 | | r Ended per 30, 2017 |
|--|-----------------------|---|-----------------------|---|
| Fund | Ordinary ¹ | Long Term Capital Gain | Ordinary ¹ | Long Term Capital Gain |
| Baron Asset Fund Baron Growth Fund Baron Small Cap Fund Baron Opportunity Fund | \$ — — — — | \$208,739,014 655,754,440 513,668,207 34,774,257 | \$ — — — — | \$115,002,326 652,001,794 620,005,422 27,000,806 |
| Baron Fifth Avenue Growth Fund Baron Discovery Fund Baron Durable Advantage Fund | 301,083 — | _ _ _ | _ _ _ | _ _ _ |

 $^{^{\}rm 1}$ For tax purposes, short-term capital gains are considered ordinary income distributions.

The Funds follow the provisions of FASB Codification Section 740 ("ASC Section 740") "Accounting for Uncertainty in Income Taxes" which clarifies the accounting for uncertainty in tax positions taken or expected to be taken on a tax return. ASC Section 740 sets forth a threshold for financial statement recognition, measurement and disclosure of tax positions taken or expected to be taken on a tax return. The Funds are required to recognize the tax effects of certain tax positions under a "more likely than not" standard, that based on their technical merits, have more than 50 percent likelihood of being sustained upon examination. Management has analyzed the tax positions taken on the Funds' federal income tax returns for all open years (current and prior three years), and has concluded that no provision for federal income tax is required in the Funds' financial statements. At March 31, 2018, the Funds did not have any uncertain tax benefits that require recognition, de-recognition or disclosure. The Funds' federal, state and local income and federal excise tax returns for which the applicable statutes of limitations have not expired (current and prior three years) are subject to examination by the Internal Revenue Service and state departments of revenue.

NOTES TO FINANCIAL STATEMENTS (Unaudited) (Continued)

9. OWNERSHIP CONCENTRATION

As of March 31, 2018, the officers, trustees, and portfolio managers owned, directly or indirectly, 16.09% of Baron Fifth Avenue Growth Fund and 50.43% of Baron Durable Advantage Fund. As a result of their ownership, these investors may be able to materially affect the outcome of matters presented to Baron Fifth Avenue Growth Fund and Baron Durable Advantage Fund shareholders.

FUND EXPENSES (Unaudited)

As a shareholder of the Funds, you may incur two types of costs: ongoing expenses and transaction costs. Ongoing expenses include advisory fees, distribution and service (12b-1) fees and other Fund expenses. Due to the payment of Rule 12b-1 fees, long-term shareholders may indirectly pay more than the maximum permitted front-end sales charge. The information on this page is intended to help you understand your ongoing costs of investing in the Funds and to compare these costs with the ongoing costs of investing in other mutual funds.

The information in the following table is based on an investment of \$1,000 invested on October 1, 2017 and held for the six months ended March 31, 2018.

ACTUAL EXPENSES

The table below titled "Based on Actual Total Return" provides information about actual account values and actual expenses. You may use the information provided in this table, together with the amount you invested, to estimate the expenses that you paid over the period. To estimate the expenses you paid on your account, divide your ending account value by \$1,000 (for example, an \$8,600 ending account value divided by \$1,000 = 8.6), then multiply the result by the number under the heading titled "Expenses Paid During the Period".

| Baron Durable Advantage Fund — R6 Shares | 1.30% | \$1,000.00 | \$1,013.004 | 0.70%5 | \$1.743 |

¹ Assumes reinvestment of all dividends and capital gain distributions, if any.

² Expenses are equal to each share class' respective annualized expense ratio multiplied by the average account value over the period, multiplied by the number of days in the most recent fiscal half-year, then divided by 365.

³ Baron Durable Advantage Fund commenced investment operations on January 2, 2018. Expenses are equal to each share class' respective annualized expense ratio multiplied by the average account value over the period, multiplied by the number of days in the most recent fiscal period (90), then divided by 365 (to reflect the partial period)

⁴ Ending account value assumes the return earned after waiver and would have been lower if a portion of the expenses had not been waived.

⁵ Annualized expense ratios are adjusted to reflect fee waiver.

FUND EXPENSES (Unaudited) (Continued)

HYPOTHETICAL EXAMPLE FOR COMPARISON PURPOSES

The table below titled "Based on Hypothetical Total Return" provides information about hypothetical account values and hypothetical expenses based on the actual expense ratio and an assumed rate of return of 5% per year before expenses, which is not the Funds' actual return. The hypothetical account values and expenses may not be used to estimate the actual ending account values and expenses you paid for the period. You may use the information provided in this table to compare the ongoing costs of investing in the Funds and other funds. To do so, compare the 5% hypothetical example relating to the Funds with the 5% hypothetical examples that appear in the shareholder reports of other funds.

Please note that expenses shown in the table below are meant to highlight your ongoing costs and do not reflect any transactional costs, such as redemption fees, if any. Therefore, the table is useful in comparing ongoing costs only and will not help you determine your relative total costs of owning different mutual funds. In addition, if these transactional costs were included, your costs would have been higher.

DISCLOSURE REGARDING THE APPROVAL OF THE INVESTMENT ADVISORY AGREEMENTS FOR BARON DURABLE ADVANTAGE FUND BY THE BOARD OF TRUSTEES (Unaudited)

The Board of Trustees (the "Board") of Baron Investment Funds Trust (the "Trust") met on November 13, 2017 to discuss the selection of BAMCO, Inc. (the "Adviser") as the investment adviser and the approval of the investment advisory agreement for Baron Durable Advantage Fund (the "Fund"). The members of the Board who are not affiliated with the Trust (the "Independent Trustees") met in a separate session to discuss and consider the renewal of the advisory agreement for the Fund. Because, at its May 4, 2017 meeting, the Board had considered the annual review of the Investment Advisory Agreements, Distribution Agreements, and 12b-1 Plans, had received presentations from an independent consultant and from management about the relevant fees, expenses and services, and, from independent legal counsel, about the legal standards, similar materials were not presented at this meeting upon the Board's confirmation that they recalled and understood the application to the Fund of the information to the presentations received and the deliberations undertaken. Based on its evaluation of this and other information, the Board, including a majority of the Independent Trustees, approved the advisory agreement for the Fund for an initial term of two years.

In reaching its determination, the Board considered various factors that it deemed relevant, including the factors listed below.

1. NATURE, EXTENT AND QUALITY OF SERVICES

As part of their consideration of the nature, extent and quality of proposed services to be provided by the Adviser, the Independent Trustees relied on the information they received at this meeting, as well as other information they received at the May 4, 2017 meeting and at other times. In particular, the Board considered the following:

- · Their confidence in the senior personnel, portfolio management, the financial condition of the Adviser and its affiliates and the Adviser's available resources;
- The nature, quality and the level of long-term performance of the services provided by the Adviser to the other funds the Adviser advises, which were expected to be provided to the Fund, including: intensive devotion to research, relationships with and supervision of third party service providers, such as the Fund's custodian and transfer agent, the quality of shareholder reports, the ability to monitor adherence to investment guidelines and restrictions, the legal, accounting and compliance services provided to the Fund and the support services provided to the Board;
- The Adviser's investment principles and processes and the Board members' general understanding of historical performance of the other funds the Adviser advises as compared to similar funds managed by other advisers;
- · The anticipated total expense ratio of the Fund;
- The costs of portfolio management, including the types of investments to be made for the Fund, the personnel and systems necessary for implementation the investment strategy; and
- · Additional services provided by the Adviser.

The Board concluded that the nature, extent and quality of the services to be provided by the Adviser to the Fund were appropriate and that it would likely benefit from those services to be provided under the Investment Advisory Agreement with the Adviser.

2. COSTS OF SERVICES PROVIDED AND PROFITS TO BE REALIZED BY THE ADVISER

As part of its consideration of the cost of services to be provided, the Board examined the fees to be charged by the Adviser as compared to the fees charged by comparable funds, as explained by the Adviser's General Counsel. The Board also discussed and considered certain services to be provided to the Fund, which include accounting, oversight of service providers, legal, regulatory, compliance, risk management and Trustee support.

In addition, the Board also considered the financial condition of the Adviser and its affiliates. Since the Fund is newly formed, had not commenced operations and the eventual aggregate amount of its assets is uncertain, the Adviser was not able to provide the Board with specific information concerning the cost of services to be provided and the expected profits to be realized by the Adviser and its affiliate from their relationships with the Fund.

The Board concluded that the proposed management fee was supportable in light of the services to be provided.

3. ECONOMIES OF SCALE AND BENEFITS TO INVESTORS

Since the Fund is newly formed, had not commenced operations and the eventual aggregate amount of the Fund's assets, uncertain, the Adviser was not able to provide the Board with specific information concerning the extent to which economies of scale would be realized as the Fund grows and whether fee levels would reflect such economies of scale, if any. It was agreed that the issue would be revisited no later than when the Board next reviewed the advisory fee in connection with the renewal of the advisory contract for the Fund.

After due consideration of the above-enumerated factors and other factors it deemed relevant, the Board, including a majority of the Independent Trustees, approved the advisory agreement for the Fund for an initial term of two years.
