Baron Real Estate Fund

A Differentiated and Compelling Real Estate Fund

The Baron Real Estate Fund is a unique real estate fund—one that is more expansive than typical REIT funds because it also invests in non-REIT commercial and residential real estate-related categories. We believe the Fund's broader approach has the potential to produce better results over the long term.

Investment Type	
REITs	<ul style="list-style-type: none"> ▶ Dividend yields, currently 4.0%¹ on average, should continue to have appeal in a low interest rate environment ▶ Valuations are attractive for several REITs
<ul style="list-style-type: none"> ▪ Tower Operator REITs 	<ul style="list-style-type: none"> ▶ Towers have highly predictable recurring revenue models ▶ High barriers to entry
Building Products/Service Companies	<ul style="list-style-type: none"> ▶ We see a rebound in new and existing home sales and remodeling ▶ We find company valuations and balance sheets attractive
Hotels & Leisure Companies	
<ul style="list-style-type: none"> ▪ Hotels & Timeshare/Leisure Companies 	<ul style="list-style-type: none"> ▶ We expect hotel companies to benefit from an improving economy ▶ Acquisition opportunities exist for well-capitalized companies
<ul style="list-style-type: none"> ▪ Cruise Lines 	<ul style="list-style-type: none"> ▶ Favorable industry structure and high barriers to entry ▶ Strong growth prospects and attractive valuations
Casino & Gaming Operators	<ul style="list-style-type: none"> ▶ We expect the gaming industry to benefit from an economic rebound ▶ Embedded real estate value
Data Centers	<ul style="list-style-type: none"> ▶ Favorable demand drivers from the increased adoption of the internet, consumption of data on mobile devices, and increased corporate IT outsourcing
Real Estate Service Companies	<ul style="list-style-type: none"> ▶ Benefiting from secular trend of companies outsourcing their commercial real estate needs ▶ High percentage of recurring revenues and favorable valuations
Homebuilders and Land Developers	<ul style="list-style-type: none"> ▶ We believe there is pent-up demand to buy homes ▶ Owners/developers of well-located land should benefit due to land inventory shortage
Real Estate Operating Companies	<ul style="list-style-type: none"> ▶ Open-ended growth opportunities ▶ Less reliant on the capital markets than REITs

We believe we are in the midst of a multi-year real estate recovery—both commercial and residential—fueled by improved cash flows, rising demand, a scarcity of new development projects, improving credit availability, and low interest rates.

Baron Real Estate Fund is diversified. In addition to general market conditions, the value of the Fund will be affected by the strength of the real estate markets as well as by interest rate fluctuations, credit risk, environmental issues and economic conditions. The Fund invests in companies of all sizes, including small- and medium-sized companies whose securities may be thinly traded and more difficult to sell during market downturns.

Risk Management

Baron manages risk by investing in businesses we believe have solid capital structures and competitive advantages. Because of the intensive research the Firm conducts, when it identifies a business it believes has attractive growth opportunities and its estimate of intrinsic value is meaningfully higher than the current price, this gives the Firm a margin of error that it believes mitigates downside risk. Risk is also managed by maintaining sustained interaction with management and by validating the investment theses through ongoing research, including due diligence with customers, suppliers, and competitors. The portfolio manager continually reassesses the companies in which the Fund is invested to assess whether the quality of the businesses remains high, competitive advantages remain in place, and the capital structures remain appropriate.
