Baron Fifth Avenue Growth Fund

Investment Goal

The investment goal of Baron Fifth Avenue Growth Fund (the "Fund") is capital appreciation through investments primarily in securities of large-sized growth companies.

Fees and Expenses of the Fund

The table below describes the fees and expenses that you would pay if you bought and held shares of the Fund.

Annual Fund Operating Expenses

(Expenses that you pay each year as a percentage of the value of your investment)

	Management Fee	Distribution (12b-1) Fee	Other Expenses	Total Annual Fund Operating Expenses	Expense Reimbursements	Total Annual Fund Operating Expenses After Expense Reimbursements ¹
BARON FIFTH AVENUE GROWTH FUND						
Retail Shares	0.70%	0.25%	0.11%	1.06%	(0.06)%	1.00%
Institutional Shares	0.70%	0.00%	0.10%	0.80%	(0.05)%	0.75%
R6 Shares	0.70%	0.00%	0.09%	0.79%	(0.04)%	0.75%

¹ BAMCO, Inc. ("BAMCO" or the "Adviser") has agreed that pursuant to a contract with an 11-year term terminating on August 29, 2030, it will reimburse certain expenses of the Fund, limiting net annual operating expenses (portfolio transaction costs, interest, dividend and extraordinary expenses are not subject to the operating expense limitation) to 1.00% of average daily net assets of Retail Shares, 0.75% of average daily net assets of Institutional Shares and 0.75% of average daily net assets of R6 shares. Only the Board of Trustees may terminate the expense reimbursement agreement prior to its termination date.

Example

This example is intended to help you compare the cost of investing in the Fund with the cost of investing in other mutual funds. The example assumes that you invest \$10,000 in the Fund for the time periods indicated and then redeem all of your shares at the end of those periods. The example also assumes that your investment has a 5% return each year and that the Fund's operating expenses remain the same.

Baron Fifth Avenue Growth Fund

Although your actual costs may be higher or lower, based on these assumptions your costs would be:

YEAR	1	3	5	10
BARON FIFTH AVENUE GROWTH FUND				
Retail Shares	\$102	\$318	\$552	\$1,225
Institutional Shares	\$ 77	\$240	\$417	\$ 930
R6 Shares	\$ 77	\$240	\$417	\$ 930

Portfolio Turnover. The Fund pays transaction costs, such as commissions, when it buys and sells securities (or “turns over” its portfolio). A higher portfolio turnover rate may indicate higher transaction costs and may result in higher taxes for Fund shareholders. These costs, which are not reflected in Total Annual Fund Operating Expenses or in the example, affect the Fund’s performance. During the most recent fiscal year ended September 30, 2019, the Fund’s portfolio turnover rate was 21.24% of the average value of its portfolio.

Investments, Risks, and Performance

Principal Investment Strategies of the Fund

The Fund is a diversified fund that invests primarily in equity securities in the form of common stock of U.S. large-sized growth companies. The Adviser defines large-sized companies as those, at the time of purchase, with market capitalizations no smaller than the top 85th percentile by total market capitalization of the Russell 1000 Growth Index at June 30, or companies with market capitalizations above \$10 billion, whichever is smaller. The Adviser seeks to invest in businesses it believes have significant opportunities for growth, sustainable competitive advantages, exceptional management, and an attractive valuation.

Principal Risks of Investing in the Fund

General Stock Market. Investing in the stock market is risky because securities fluctuate in value. These fluctuations may be due to political, economic or general market circumstances. Other factors may affect a single company or industry but not the broader market. Because the values of securities fluctuate, when you sell your investment in the Fund, you may lose money. Current and future portfolio holdings in the Fund are subject to risk.

Baron Fifth Avenue Growth Fund

Growth Investing. Growth stocks can react differently to issuer, political, market and economic developments than the market as a whole and other types of stocks. Growth stocks tend to be more expensive relative to their earnings or assets compared to other types of stocks. As a result, growth stocks tend to be sensitive to changes in their earnings and more volatile than other types of stocks.

Large-Cap Companies. Because the Fund invests primarily in large-cap company securities, it may underperform other funds during periods when the Fund's securities are out of favor.

Technology. Technology companies, including internet-related and information technology companies, as well as companies propelled by new technologies, may present the risk of rapid change and product obsolescence, and their successes may be difficult to predict for the long term. Some technology companies may be newly formed and have limited operating history and experience. Technology companies may also be adversely affected by changes in governmental policies, competitive pressures and changing demand. The securities of these companies may also experience significant price movements caused by disproportionate investor optimism or pessimism, with little or no basis in the companies' fundamentals or economic conditions.

Consumer Discretionary Sector Risk. The consumer discretionary sector may be affected by changes in domestic and international economies, exchange and interest rates, competition, consumers' disposable income, consumer preferences, social trends and marketing campaigns.

Performance

The following bar chart and table provide some indication of the risks of investing in the Fund (Retail Shares) by showing changes in the Fund's performance from year to year and by showing how the Fund's average annual returns for 1, 5 and 10 years and since inception compare with those of a broad measure of market performance. The Fund's past performance (before and after taxes) is not necessarily an indication of how the Fund will perform in the future. Updated performance information is available online at www.BaronFunds.com/performance or by calling 1-800-99BARON (1-800-992-2766).

Baron Fifth Avenue Growth Fund

Year by Year Total Return (%) as of December 31 of Each Year (Retail Shares)

Best Quarter: 03/31/12: 22.69%

Worst Quarter: 12/31/18: (16.99)%

Average Annual Total Returns (for periods ended 12/31/19)

The following table shows the Fund's Retail Shares' annual returns and long-term performance (before and after taxes) and the change in value of broad-based market indexes over various periods ended December 31, 2019. The table also shows the average annual returns of the Fund's Institutional Shares and R6 Shares, but it does not show after-tax returns.

After-tax returns are calculated using the highest individual federal marginal income tax rate in effect at the time of each distribution and assumed sale, but they do not include the impact of state and local taxes.

Your actual after-tax returns depend on your own tax situation and may differ from those shown. After-tax returns reflect past tax effects and are not predictive of future tax effects. After-tax returns are not relevant to investors who hold their Fund's shares in a tax-deferred account (including a 401(k) or IRA or Coverdell account), or to investors that are tax-exempt.

* Performance for the Institutional Shares prior to May 29, 2009 is based on the performance of the Retail Shares. Performance for the R6 Shares prior to January 29, 2016 is based on the performance of the Institutional Shares, and prior to May 29, 2009 is based on the performance of the Retail Shares. The Retail Shares have a distribution fee, but Institutional Shares and R6 Shares do not. If the annual returns for the Institutional Shares and R6 Shares prior to May 29, 2009 did not reflect this fee, the returns would be higher.

The Russell 1000® Growth Index is an unmanaged index of larger-cap growth companies. The S&P 500 Index is an unmanaged index of larger-cap companies.

Management

Investment Adviser. BAMCO is the investment adviser of the Fund.

Tax Information

Distributions of the Fund's net investment income (other than "qualified dividend income") and distributions of net short-term capital gains will be taxable to you as ordinary income. Distributions of the Fund's net capital gains reported as capital gain dividends by the Fund will be taxable to you as long-term capital gains, regardless of the length of time you have held shares of the Fund. If you are investing through a tax-deferred arrangement, such as a 401(k) plan or an individual retirement account, you may be subject to federal income tax on withdrawals from tax-deferred arrangement at a later date.

Financial Intermediary Compensation

If you purchase Retail or Institutional Shares of the Fund through a broker, dealer or other financial intermediary (such as a bank or financial adviser), the Fund, Baron Capital, Inc., the Fund's distributor, BAMCO or their affiliates may pay the intermediary for the sale of Fund shares and related services. These payments may create a conflict of interest by influencing the broker, dealer or other financial intermediary, including and your salesperson, to recommend the Fund over another investment. Ask your salesperson or visit your financial intermediary's website for more information.
