

BARON WEALTHBUILDER FUND

June 30, 2021

Institutional Shares (BWBIX)

Portfolio Managers

Ron Baron is Baron Capital's founder, chairman, and CEO. He has been Baron WealthBuilder Fund's portfolio manager since its inception. He has 51 years of investment research and portfolio management experience. Ron has a B.A. in Chemistry from Bucknell University.

Michael Baron joined Baron in 2004 as a research analyst. He was Baron WealthBuilder Fund's assistant portfolio manager at its inception and named co-portfolio manager in 2020. He has 18 years of investment research experience. Michael has a B.A. in Economics from Duke University and an M.B.A. from The Wharton School at the University of Pennsylvania.

Please visit our website for more details on their experience.

Investment Principles

- Long-term perspective allows us to think like an owner of a business
- Independent and exhaustive research is essential to understanding the long-term fundamental growth prospects of a business
- We seek open-ended growth opportunities, exceptional leadership, and sustainable competitive advantages
- Purchase price and risk management are integral to our investment process

Investment Strategy

The Fund is an equity allocation strategy that invests exclusively in other Baron Funds. The Fund enables investors to obtain growth equity exposures across market caps, geographies, and sectors.

Risks

Risks: The Fund is a non-diversified fund because it invests, at any given time, in the securities of a select number of Baron mutual funds (the "Underlying Funds"), representing specific investment strategies. The Fund can invest in funds holding U.S. and international stocks; small-cap, small to mid-cap, large-cap, all-cap stocks; and specialty stocks. Each of the Underlying Funds has its own investment risks, and those risks can affect the value of the Fund's investments and therefore the value of the Fund's shares. To the extent that the Fund invests more of its assets in one Underlying Fund than in another, it will have greater exposure to the risks of that Underlying Fund. For further information regarding the investment risks of the Underlying Funds, please refer to the Underlying Funds' prospectus.

The performance data quoted represents past performance. Past performance is no guarantee of future results. The investment return and principal value of an investment will fluctuate; an investor's shares, when redeemed, may be worth more or less than their original cost. BAMCO, Inc. ("BAMCO" or the "Adviser") has agreed that, pursuant to a contract expiring on August 29, 2031, unless renewed for another 11-year term, it will reimburse certain expenses of the Fund, limiting net annual operating expenses (portfolio transaction costs, interest, dividend, acquired fund fees and expenses and extraordinary expenses are not subject to the operating expense limitation) to 0.30% of average daily net assets of Retail Shares, 0.05% of average daily net assets of Institutional Shares and 0.05% of average daily net assets of TA Shares, without which performance would have been lower. Current performance may be lower or higher than the performance data quoted. For performance information current to the most recent month end, visit www.BaronFunds.com or call 1-800-99BARON.

Investors should consider the investment objectives, risks, and charges and expenses of the investment carefully before investing. The prospectus and summary prospectus contain this and other information about the Fund. You may obtain them from the Fund's distributor, Baron Capital, Inc., by calling 1-800-99BARON or visiting www.BaronFunds.com. Please read them carefully before investing. The prospectuses and summary prospectuses of the underlying Funds may also be obtained from the Fund's distributor, Baron Capital, Inc.

1 - Industry sector or sub-industry group levels are provided from the Global Industry Classification Standard ("GICS"), developed and exclusively owned by MSCI, Inc. ("MSCI") and Standard & Poor's Financial Services LLC ("S&P"). All GICS data is provided "as is" with no warranties. The Adviser may have reclassified/classified certain securities in or out of a sub-industry. Such reclassifications are not supported by S&P or MSCI. Based on exposures of the underlying funds.

2 - Source: FactSet PA and BAMCO.

3 - Source: FactSet SPAR. Except for Standard Deviation and Sharpe Ratio, the performance based characteristics above were calculated relative to the Fund's benchmark. The benchmark's 3-Yr and Since Inception Sharpe Ratio were 0.94 and 0.87 respectively, and the 3-Yr and Since Inception Std. Dev. (%) - Annualized were 18.52% and 17.65% respectively.

4 - The numbers and percentages shown are based on individual securities held in one or more of the underlying funds.

5 - Cash includes cash, cash equivalents, and unrealized appreciation/depreciation from unfunded commitments in PIPE, SPAC PIPE and/or Private Equity securities.

The Fund may not achieve its objectives. Portfolio holdings may change over time.

Definitions (provided by BAMCO, Inc.): The **S&P 500 Index** measures the performance of 500 widely held large-cap U.S. companies. The **MSCI ACWI Index** measures the equity market performance of large- and mid-cap securities across developed and emerging markets, including the United States. The indexes and the Fund include reinvestment of dividends, net of withholding taxes, which positively impact the performance results. Index performance is not fund performance. Investors cannot invest directly into an index. Morningstar calculates the **Morningstar Allocation 85%+ Equity Category Average** performance and rankings using its Fractional Weighting methodology. Total returns do account for management, administrative, and 12b-1 fees and other costs automatically deducted from fund assets. © 2021 Morningstar. All Rights Reserved. The information contained herein: (1) is proprietary to Morningstar and/or its content providers; (2) may not be copied or distributed; and (3) is not warranted to be accurate, complete or timely. Neither Morningstar nor its content providers are responsible for any damages or losses arising from any use of this information. Past performance is no guarantee of future results. **Standard Deviation (Std. Dev.)**: measures the degree to which a fund's performance has varied from its average performance over a particular time period. The greater the standard deviation, the greater a fund's volatility (risk). **Sharpe Ratio**: is a risk-adjusted performance statistic that measures reward per unit of risk. The higher the Sharpe ratio, the better a fund's risk-adjusted performance. **Alpha**: measures the difference between a fund's actual returns and its expected performance, given its level of risk as measured by beta. **Beta**: measures a fund's sensitivity to market movements. The beta of the market is 1.00 by definition. **R-Squared**: measures how closely a fund's performance correlates to the performance of the benchmark index, and thus is a measurement of what portion of its performance can be explained by the performance of the index. **Tracking Error**: measures how closely a fund's return follows the benchmark index returns. It is calculated as the annualized standard deviation of the difference between the fund and the index returns. **Information Ratio**: measures the excess return of a fund divided by the amount of risk the fund takes relative to the benchmark index. The higher the information ratio, the higher the excess return expected of the fund. **Upside Capture**: explains how well a fund performs in time periods where the benchmark's returns are greater than zero. **Downside Capture**: explains how well a fund performs in time periods where the benchmark's returns are less than zero. **Active Share**: a term used to describe the share of a portfolio's holdings that differ from that portfolio's benchmark index. It is calculated by comparing the weight of each holding in the Fund to that holding's weight in the benchmark. Positions with either a positive or negative weighting versus the benchmark have Active Share.
